

I want to focus on two components of the build today. First, I want to focus on what I believe God wants to spiritually do with our property on Highway 36. My prayer is the North Campus will be a holy place where God's presence is tangible. I want this facility to be a place where marriages are restored, individuals are disciplined, addictions are broken, and people enter into a relationship with God.

It is no accident that the property is located, accessible, and visible along the most traveled road in Austin County. God's desire is stated clearly in 1 Timothy 2:4, He desires all men and women to come into a saving relationship with Him. It is no coincidence, He has lent us this property to use for His glory.

Secondly, I also believe God is preparing the right people to physically build the church. This is an opportunity for our church to reach out to these men and women to show and tell them about the love of God. What a testimony FBC can leave in the lives of the workers by cooking lunches for the workers and inviting them to worship with us in the facility they are erecting.

I want us to look for opportunities to witness and minister during the construction phase which God is bringing people from our community literally to our new church's door.

PRAYER FOCUS:

1. Pray God would prepare the hearts of the men & women in the building community to not just build a building, but receive the gift of life through Jesus.
2. Pray our facility will serve as a beacon of light to Bellville.
3. How might God use you to reach the men and women in the construction community?
